The rice in the south promises to be over 2,000,000 bags, the largest crop yet recorded.

The square or main part of Gen. Grant's tomb at New York has been finished and the memorial will stand complete in another year.

CONSUL DORNBACH at Liepsic, Germany, has made a report to the state department upon the manufacture and use of electric plows in that country. He showed that the plows are operated by electricity much cheaper than by steam.

The record of train accidents in June includes 40 collisions, 23 derailments and four other accidents, a total of 67 accidents, in which 35 persons were killed and 83 injured. All accidents which caused no deaths or injuries to persons are omitted.

EXTENSIVE investigations of much importance to the commercial interests of the United States, having in view the determination of the possibility of growing flax in this country successfully for fiber, have been decided on by the agricultural department.

THE whole number of citizens in the United States liable to military duty is given at 9,998,000, and it was said that it would not be difficult to recruit from this force an army of a million or two of men if an emergency should arise to demand their services.

THE London Daily News announced that there was reason to believe that the international antarctic expedition, as suggested by the international geographical congress at their meeting on July 29, would become an accomplished fact at no distant date.

THE London Times, discussing bimetalism recently, said that France was not likely to accept any ratio but 15 to 1, and that a ratio of 35 to 1 would not receive attention from the silver men, or the so-called bimetalists, who were really persons with silver securities to sell.

ATLANTA will soon be a city of slabs. Small posts upon which will be inscribed the name of some command during the war, the place played in the battle of Atlanta, and the number of men killed in the engagements on that fateful day on July 23 will be erected in every part of the city.

THE Union Pacific road has supplied each of its claim agents with a camera, so that they will be able to take snapshots of wrecks and of the scene of other accidents where personal injury claims might arise, as photographs are good things to go before a jury with and shut off appeals to the court.

ARCHIBALD COLEMAN and Charles H. Taylor recently started from the capital steps at Washington for a tramp around the world. They went on a wagon of \$500 that they could make the trip without funds, earning their way as they proceeded, within fourteen months. Coleman is said to be the son of a Detroit banker and Taylor is a Washington boy.

THE state department at Washington has been notified by Ambassador Eustis of the unanimous passage by the French chamber of deputies of a resolution looking to the arrangement of a treaty between the United States and France by the terms of which any difference that may hereafter arise between the two countries will be adjusted by arbitration.

A NEW YORK World cable special says: "A number of wealthy Spaniards have addressed a communication to prominent rich Catholics in France, Austria and England, proposing to raise a fund to purchase Rome from Italy and thus free the pope from his imprisonment and make him again a temporal ruler. Italy's almost bankrupt condition is quoted as a reason for the belief that the government would accept the proposition. The scheme seems wild enough were it not that Italy's condition is rapidly driving her helplessly tax ridden people towards anarchy."

THE present oleomargarine laws are liable to soon become practically a dead letter. Certain manufacturers of cotton seed oil are making a preparation which cannot be distinguished from butter except by an expert. They, however, sell it as cotton seed oil or else give it some fancy name. They say that it is immaterial to them whether people, who buy it, use it for wheel grease or to spread upon bread. But they say it is not sold as butter or for butter, and therefore is not subject to the internal revenue tax on oleomargarine. The manufacturers expect to defeat the law.

THE combination between the Baldwin locomotive works, of Philadelphia, and the Westinghouse Electric Co. to build electric motors has aroused great interest in railroad circles. Mr. Upton, of the Westinghouse company, said: "If our plans are successful, and there is every reason to believe that they will be, railroading will be revolutionized. We have figured that to locomotives can be built to run 150 miles per hour, and we will see them going at that rate within a few years. This may seem like a flight of imagination, but it is not. We have the motor and the carriage can be furnished."

ALL the business portion of Berlin, Md., was destroyed by fire on the 4th, besides many residences. Loss \$300,000.

THE steamers Carrollton and Big Sandy were burned to the water's edge at Cincinnati on the 5th. Loss, \$150,000.

At the hurdle racing at Saratoga, N. Y., on the 3d Alchemist fell at a hurdle and broke his neck, dying instantly. Veach, his rider, was pulled out from under the horse, unconscious.

A SPECIAL from Croton, Ia., on the 25th told of an alarming diphtheria epidemic there. All the children in some families had died. Quarantine had been established.

SHOT HIM ON SIGHT.

A Horrible Shooting Affray Between Mississippians.

BOTH PARTIES MEN OF PROMINENCE

Juror Brown Denies His Interview—Sun Strikes in Southern and Eastern Cities—Whole Family Accused of Murder Arrested

Brandon, Miss., Aug. 10.—A horrible shooting affray took place here at 9 o'clock this morning, in which T. Dabney Marshall, a prominent lawyer and member of the state legislature from Vicksburg, and two of his friends shot and killed R. T. Dinkins, agent of the Austin Road machine company. While standing on the platform of the depot Dinkins was approached by Marshall and his two companions, H. H. Coleman and P. Fox of Vicksburg. Marshall walked up to Dinkins and said: "This is Mr. Dinkins, and placing his pistol at Dinkins' stomach fired the weapon. Dinkins grabbed the pistol just as it was fired, and possibly the first shot did not take effect. As Dinkins backed away from Marshall, there was a fusillade of shots from Marshall's companions. It is thought Dinkins fired Marshall's pistol at him as it was found in his hand when dead.

The cause of the killing is a sensational story told of Marshall by Dinkins. A tugboat went to the wreck and saved those who had not gone in the boats. It was thought that sixty persons had drowned, of whom forty-six were Chinese.

LO IN VARIOUS ASPECTS.

At El Reno He is Discussed as He is in Fiction, Fancy and Fact.

El Reno, O. T., Aug. 8.—(Special.)—The attendance at the Indian institute is increasing and opened this morning with the opera house fully crowded. Professor C. P. Cornelius, a full blooded Indian from Seymour, Wis., is taking a very active part in all the proceedings.

Professor Vietes opened the morning session as presiding officer and Superintendent G. S. Pigg opened the discussion by reading a paper entitled "A Plan for Industrial Work," and was followed by Dr. Heinemann, who gave a description of original kindergarten work; a room with a stone or wooden floor but an actual outdoor garden, where the children would learn the practical management of flowers and vegetable beds. Rev. Sanford advocated the teaching of fruit tree culture. Many Indians living in a country where there are no trees and no fruit were favorable to the propagation of orchards. Professor J. H. Pearce strongly endorsed an actual kindergarten and stated that the preliminary steps had been taken to establish one at the Haskell institute. Professor J. H. Pearce stated that the preliminary steps had been taken to establish one at the Haskell institute.

MISS Sarah Brown of Haskell institute, sister of Judge Brown, formerly of Larned, Kan., was requested by Professor Helman, general superintendent, to give a review on industrial work for Indians. In a short address she gave some valuable suggestions to the audience.

Every lively scene arose over the "Outing System," a subject very ably handled by Dr. M. N. Dougan of Shoshone, Nev. In his paper the doctor spoke of the Indian who is not as he appears in novels and suggested ways and means to make him what he ought to be.

A life long experience in Indian work enabled Professor Vietes to state positively that the Indian will work and that the Indian is not a "savage" as he is often called. He said that the Indian is a "savage" as he is often called. He said that the Indian is a "savage" as he is often called.

THE afternoon was devoted to organization in the teachers and superintendent sections.

MINISTER DENBY MAKES DEMANDS.

Friends of the Missionaries Urge Action—Blind Not a Candidate for President, for Governor or Anything Else—Late News.

Washington, Aug. 10.—There are persons whose relations with the president are of the closest character who believe that Mr. Cleveland's first choice for Justice Jackson's successor on the supreme bench will be Mr. Olney, the secretary of state. It is known he places implicit confidence in the soundness of Mr. Olney's opinions on all important legal questions which come before him, and that he fully appreciates the great assistance Mr. Olney has rendered him in the disposition of the great questions that have arisen during the last two years. Whether Mr. Olney's residence in Massachusetts will render him unavailable it is not known but it is the opinion of many well informed persons here that but for this objection he would surely be the man. Next to him Mr. Rufus Peckham is thought by many to be the most likely to receive the nomination.

DEMANDS ON CHINA.

No official advice has reached the state department concerning the report of destruction of the American mission property at Inchow, China. It is believed at the department that the place referred to is identical with Su Jui, a trouble spot which has been the scene of trouble here and there for some time ago and that this second dispatch relates to the same incident.

Acting Secretary Ades received a telegram from the United States Minister Denby by the Southern Methodist and Presbyterian Missionary society officials confirming the report of the outrageous character of the Ku Ching Tai and urging the state department to protect the American missions in China. THERE'S MONEY ON HAND.

Master Carmichael Recommends a Payment on Union Pacific Bonds.

Omaha, Neb., Aug. 10.—Judge W. D. Cornish, master in chancery in the Union Pacific foreclosure cases, today filed his report on the petition of the American Loan and Trust company as trustee, seeking for the payment of default principal and interest on the coupon trust bonds of the Union Pacific. The reports find that there is money on hand upon which these bonds have a claim. He recommends an order allowing payment of part due principal and interest. These bonds were issued in October, 1887, in payment for a lot of new equipment bought at that time and amounted to \$1,541,000, due in installments of about one-eighth each year.
